

# User Manual

## SMART MINIONS

YOUR PERSONAL ASSISTANTS  
Version 1.0

## INTRODUCTION

Welcome to the user manual.

All buttons have small hint messages to help you out.

Also, in some cases when the assistant is open, we speak to you to guide and inform you.

You can check current date and time in the bottom right corner of the screen in most pages.

## LOGIN

The login screen for 'SMART MINIONS' features a blue header with the title in yellow. The background is yellow with a large, laughing Minion character in the center. In the top left corner, there is a red 'EXIT' button with a hint bubble that says 'HAHAHAHA YOU DONT KNOW MY PASSWORD!'. The login form is a white rectangle with a blue border, containing an 'Email :' label, an input field, a 'Password :' label, another input field, and a yellow 'LOGIN' button. At the bottom, there is a blue footer with the text '©All rights reserved.', 'YOUR PERSONAL-ASSISTANTS' in yellow, and 'Smart@minions.org'.

# HOME CONTROL

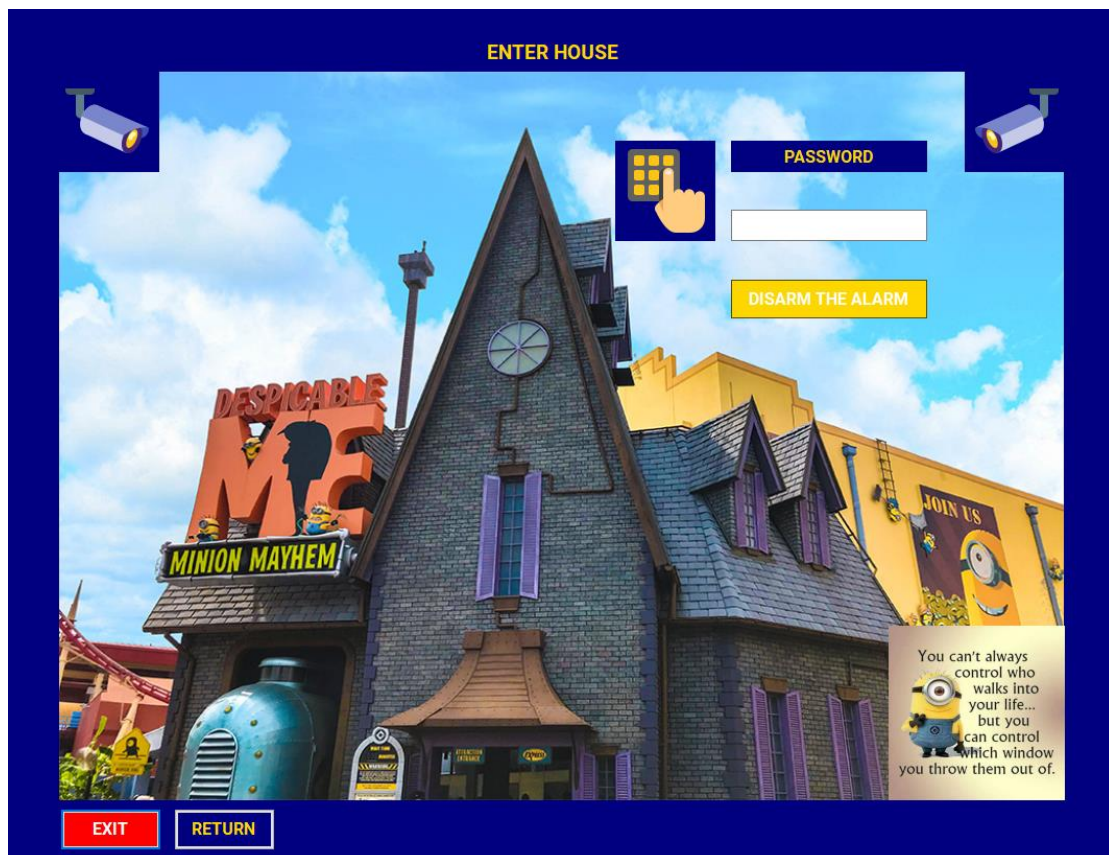

In this page you can choose every time one page to go. Just click on the image buttons and you will go the next page accordingly. There are 6 pages you can visit:

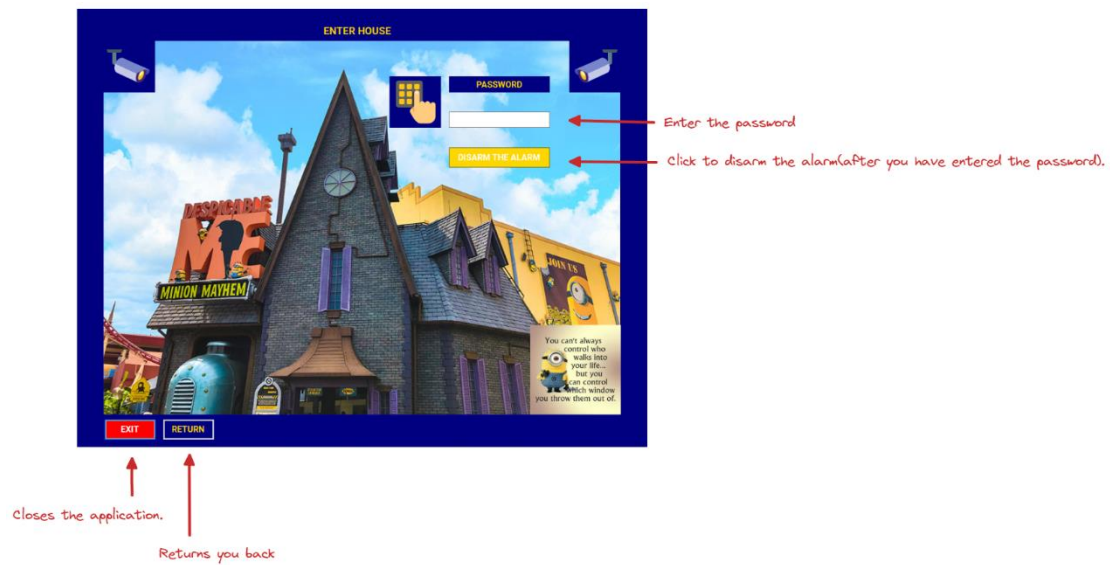

1. Security page

2. Lights page
3. Living room page
4. Kitchen page
5. Bedroom page
6. Bathroom page

- “Return” button: Drives you to the previous page.
- “Exit” button: Closes the application.

## ENTER-UNLOCK HOUSE

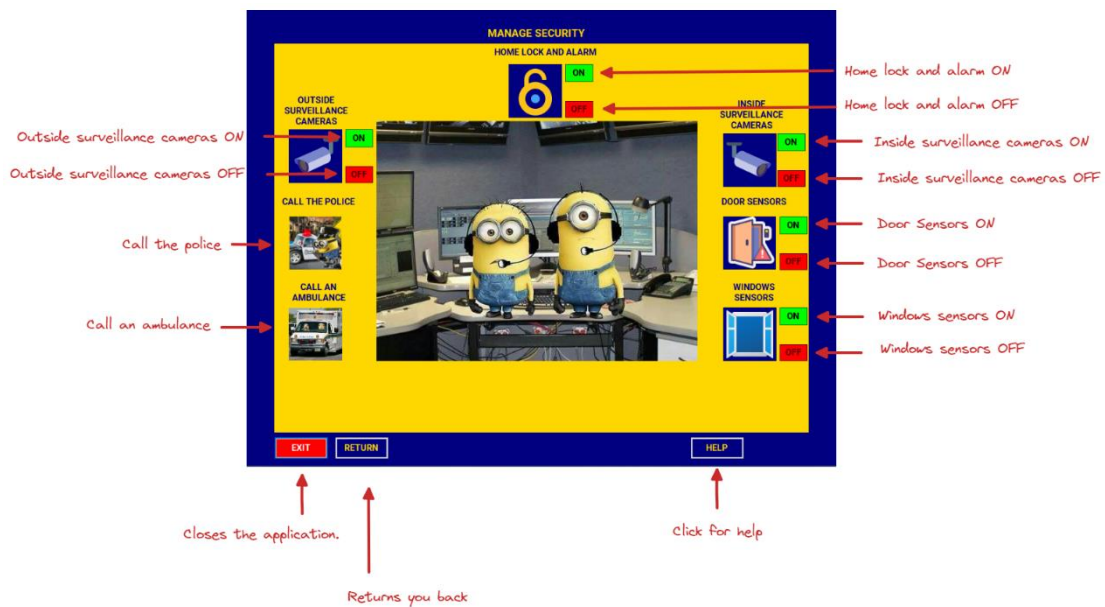

Please type the password (which you have set at your alarm device) to disarm the alarm system and tap on “disarm the alarm” button.

- “Return” button: Drives you to the previous page.
- “Exit” button: Closes the application.
- “Disarm the alarm” button:
  - a) Disarms the alarm when the entered password is correct and drives you to the Home Control page.
  - b) If the entered password is wrong the alarm sounds and the police is called.

# SECURITY

- Home lock and alarm:
  - a) By pressing the “ON” button all cameras (inside and outside), all sensors (doors and windows) and the alarm are enabled. The house is now locked and safe.

- Surveillance cameras (inside and outside):
  - a) By pressing the “ON” button you enable the specific cameras.
  - b) By pressing the “OFF” button you disable the specific cameras.
- Sensors (doors and windows):
  - a) By pressing the “ON” button you enable the specific sensors.
  - b) By pressing the “OFF” button you disable the specific cameras.
- “Call the Police” image button: Calls the police.

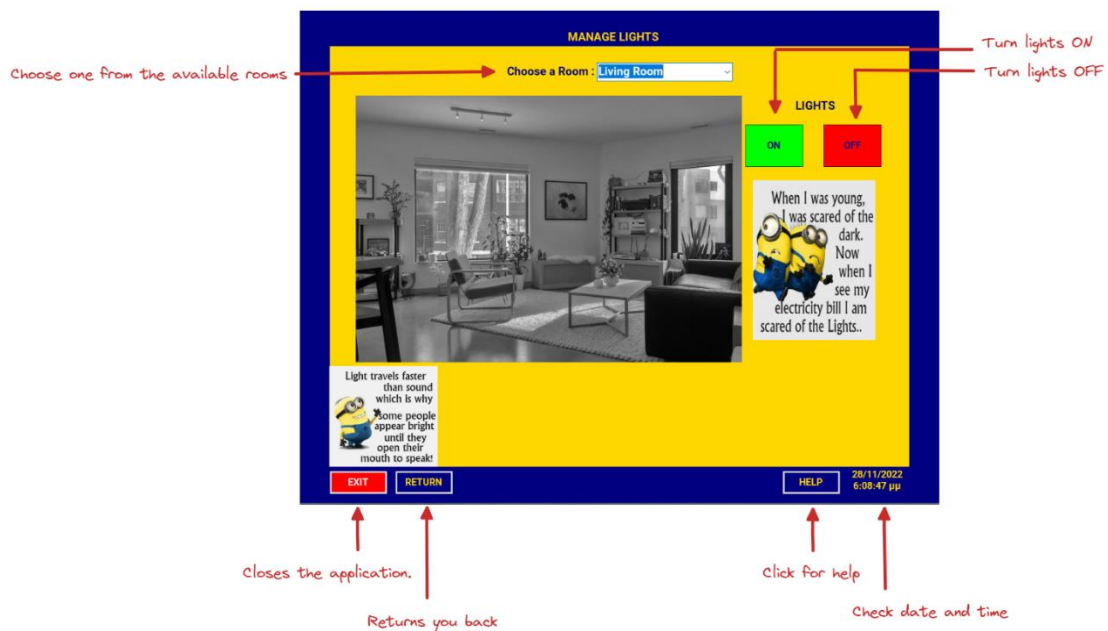

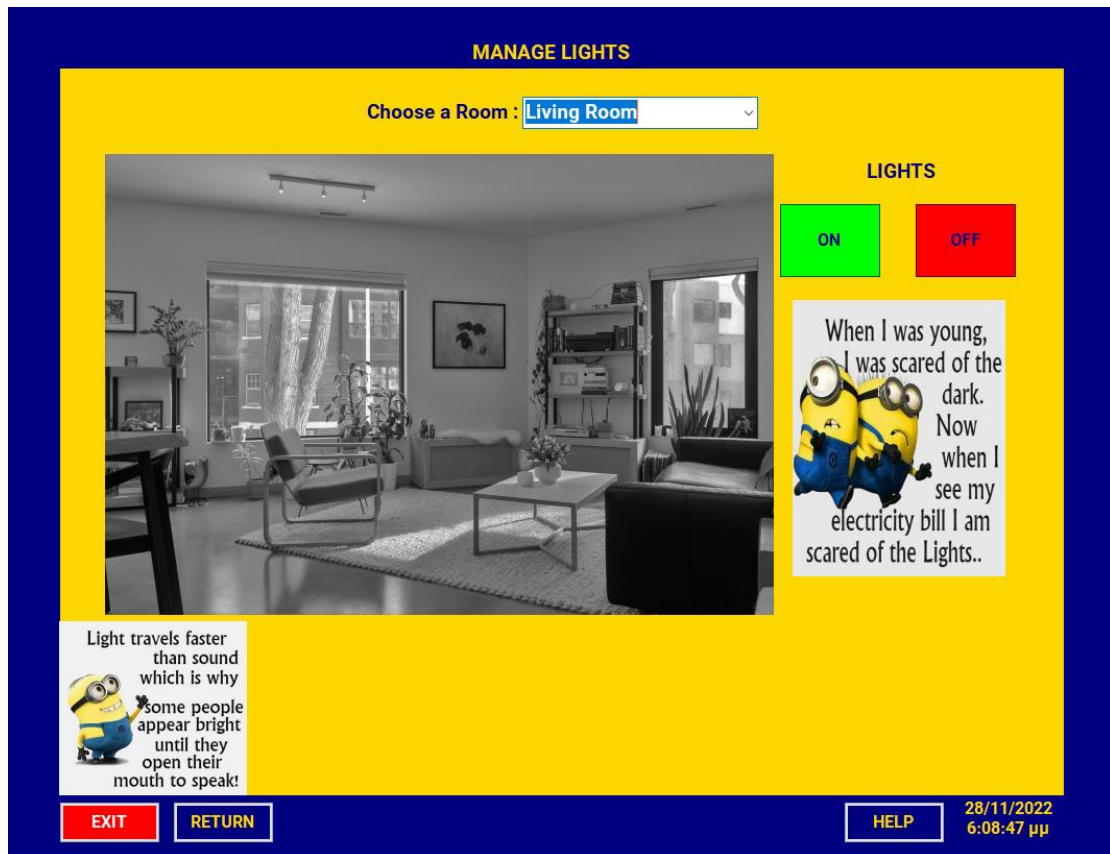

Be aware this is a sensitive button, and you should press it only in case of emergency or danger to call the police. There are legal consequences and prosecutions for messing around with law enforcement. So please be careful with this button.

- “Call an Ambulance” image button: Calls for an ambulance.

Be aware this is a sensitive button, and you should press it only in case of medical emergency or serious wounds to call for an ambulance. Keep in mind that this isn’t a game, and the ambulance may be needed elsewhere truly. So please be careful with this button.

- “Help” button: Provides help about this section of the application.
- “Return” button: Drives you to the previous page.
- “Exit” button: Closes the application.

## LIGHTS

In the lights page you can control the lights of the house. Just select the room you want to go, and the specific room will appear.

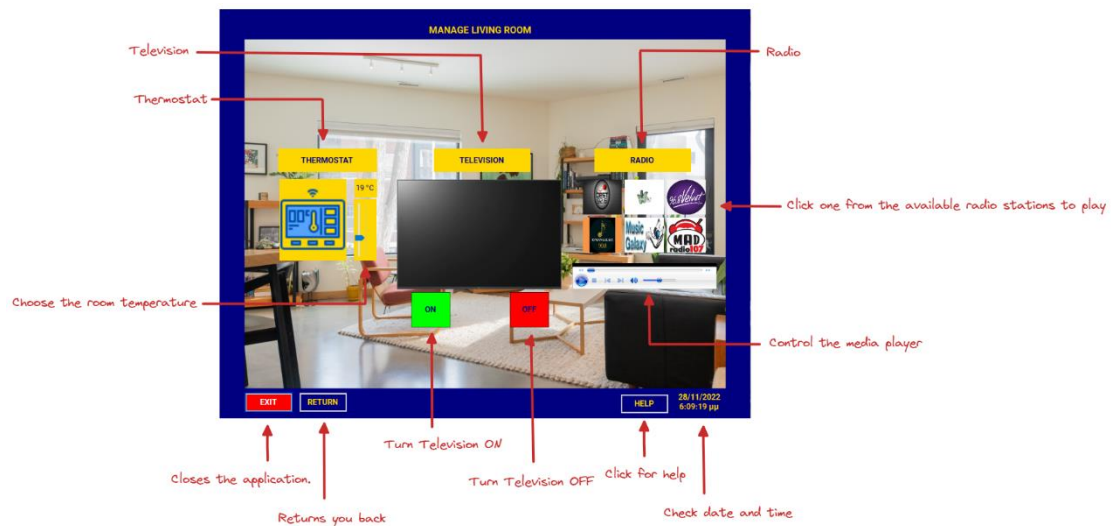

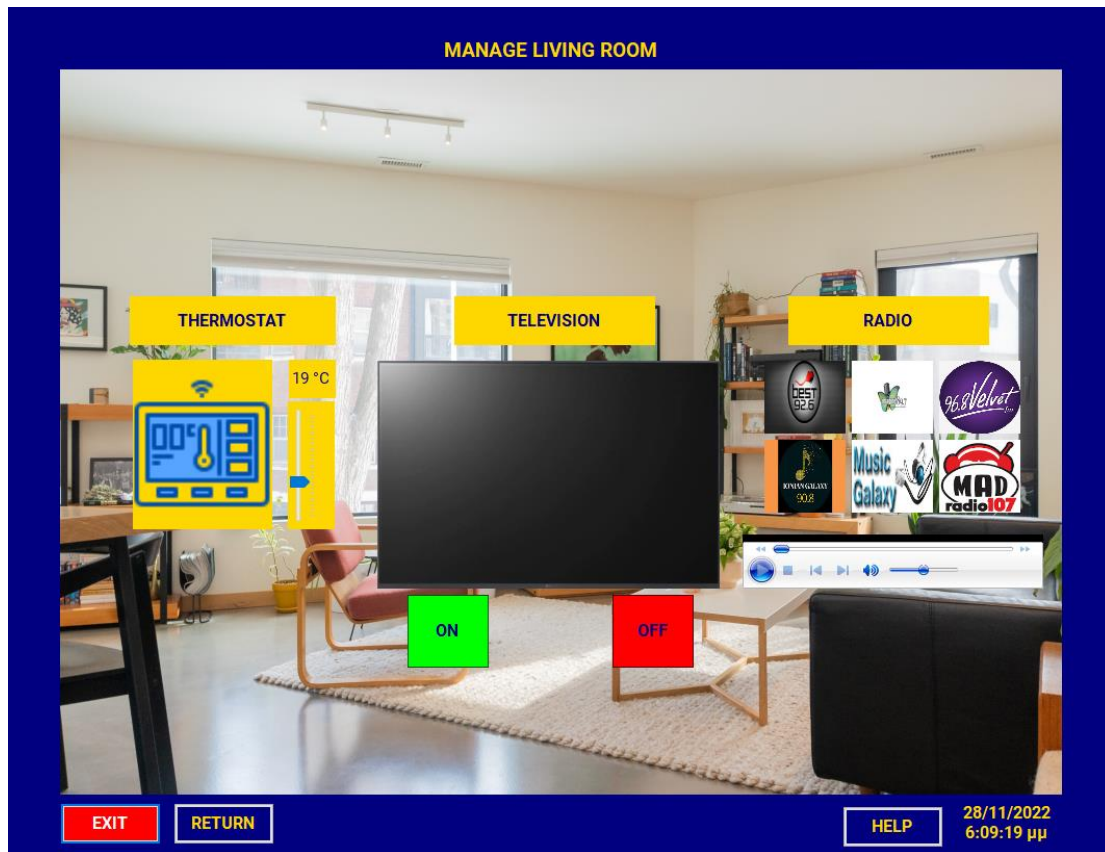

Your possible choices are:

1. Living room
2. Kitchen
3. Bedroom
4. Bathroom

- When you click on the green “ON” button the lights of this specific room turn on.
- When you click on the red “OFF” button the lights of this specific room turn off.
- If you open the lights in a room and then you change room the lights will remain turned on.  
Remember to close the lights to avoid high electricity bills.
- “Help” button: Provides help about this section of the application.
- “Return” button: Drives you to the previous page.
- “Exit” button: Closes the application.

## LIVING ROOM

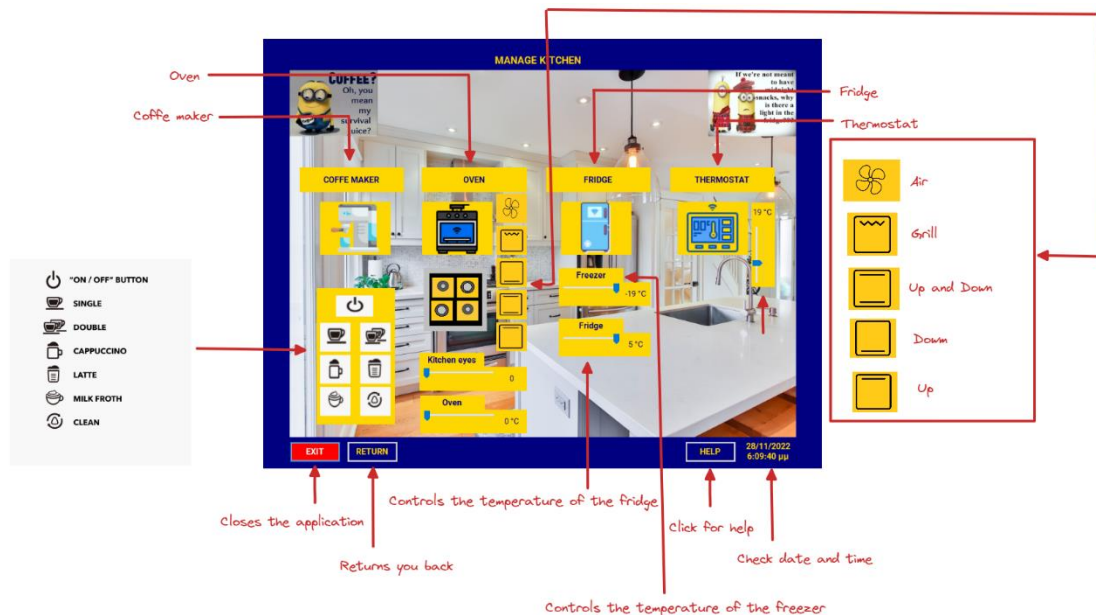

In Living room page there are 3 available devices you can control. These are:

1. Thermostat
2. Television
3. Radio

- Thermostat: Controls the temperature of the room. The higher the temperature the warmer is your house. The thermostat temperatures are between 0 and 30 °C. The 0 value indicates that the thermostat is off. It never goes really to 0 °C.
- Television: When you click ON the TV turns on. When you click OFF the TV turns off.
- Radio: Plays the 6 available radio stations. You can control music through media player buttons.
- “Help” button: Provides help about this section of the application.
- “Return” button: Drives you to the previous page.
- “Exit” button: Closes the application.

# KITCHEN

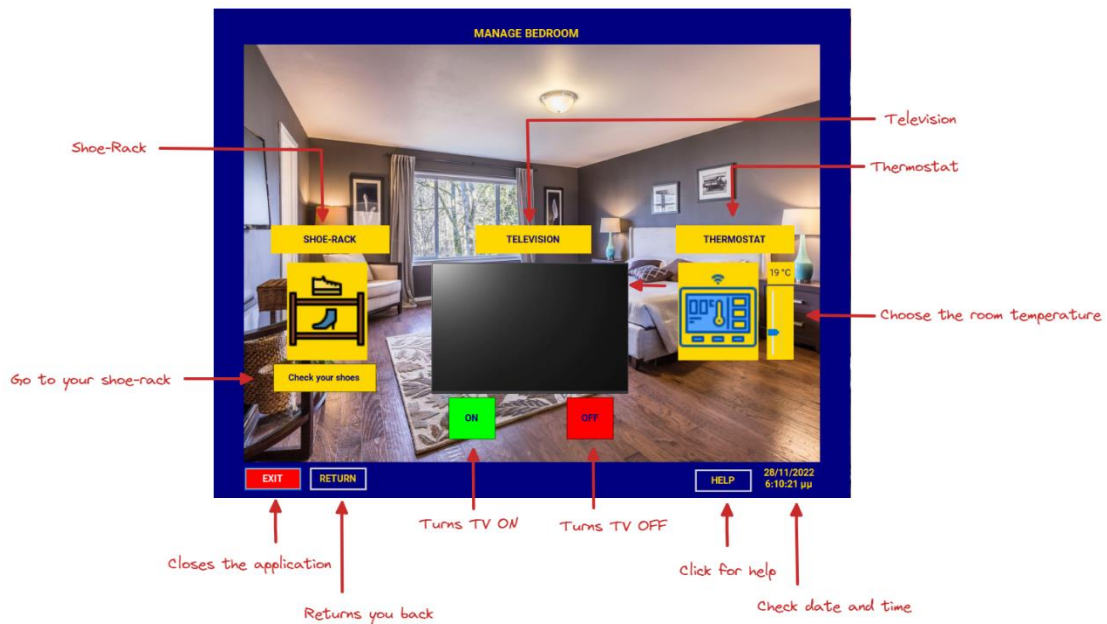

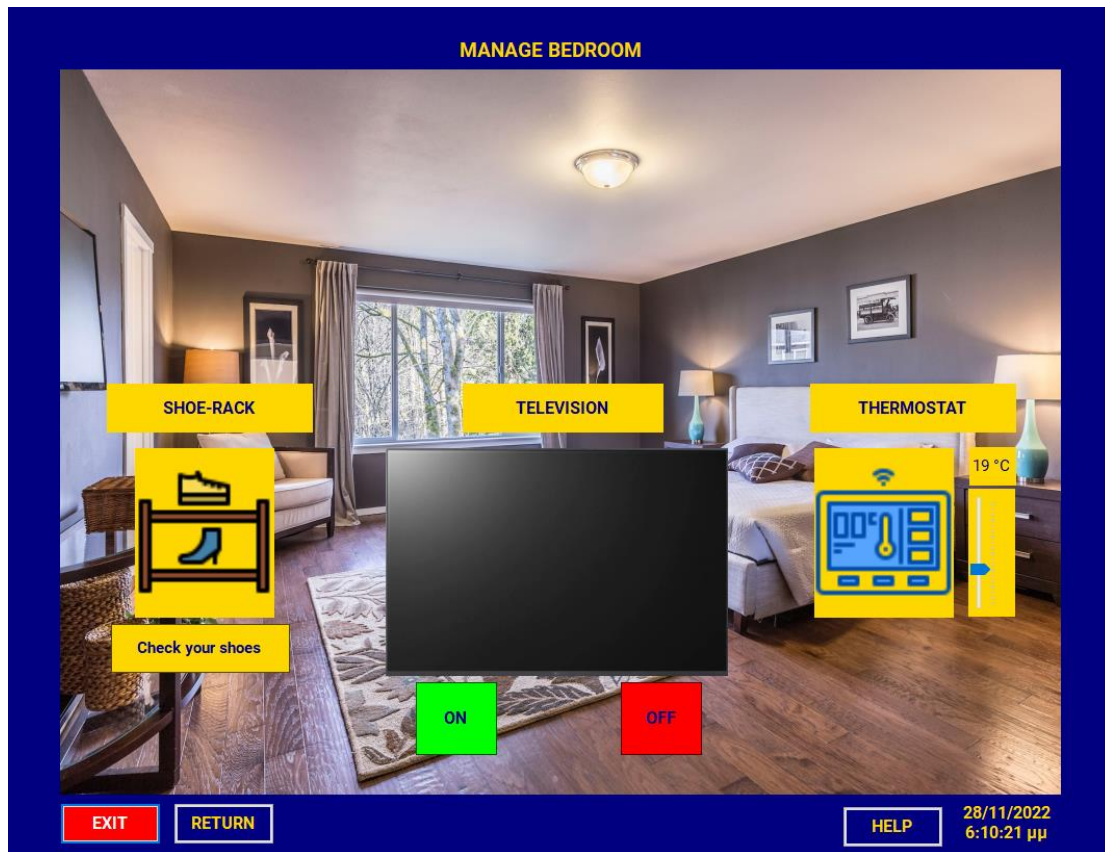

In Kitchen page there are 4 available devices you can control. These are:

1. Coffee maker
2. Oven
3. Fridge
4. Thermostat

- Coffee maker: You control the coffeemaker. Firstly, you turn on the coffeemaker. Then choose the type of coffee that you want to make. For example, if you want a single espresso, you must tap the “single” button etc. If you want to clean the coffeemaker, click on the clean button. For more information read the above image carefully.
- Oven: With the kitchen eyes bar you control the heating of the kitchen eyes. The kitchen eyes values are between 0 and 9. The 0 value means the kitchen eye is off and 9 is the maximum value. To enable a kitchen eye just click on the desired kitchen eye and then use the kitchen eyes bar to select the power. To close a kitchen eye just click it again.  
To use the oven, select an option from the below:(by clicking on it)
  - Air
  - Grill
  - Down
  - Up-Down
  - Up
 Then choose the oven temperature you desire from the oven bar. The oven bar values are between 0 °C and 275 °C.
- Fridge: You can control the freezer bar temperature which determines the temperature of your freezer. The freezer temperatures are between -23 and -15°C.  
You can control the fridge bar temperature which determines the temperature of your fridge. The fridge temperatures are between 1 and 7 °C.
- Thermostat: Controls the temperature of the room. The higher the temperature the warmer is your house. The thermostat temperatures are between 0 and 30 °C. The 0 value indicates that the thermostat is off. It never goes really to 0 °C.
- “Help” button: Provides help about this section of the application.
- “Return” button: Drives you to the previous page.
- “Exit” button: Closes the application.

## BEDROOM

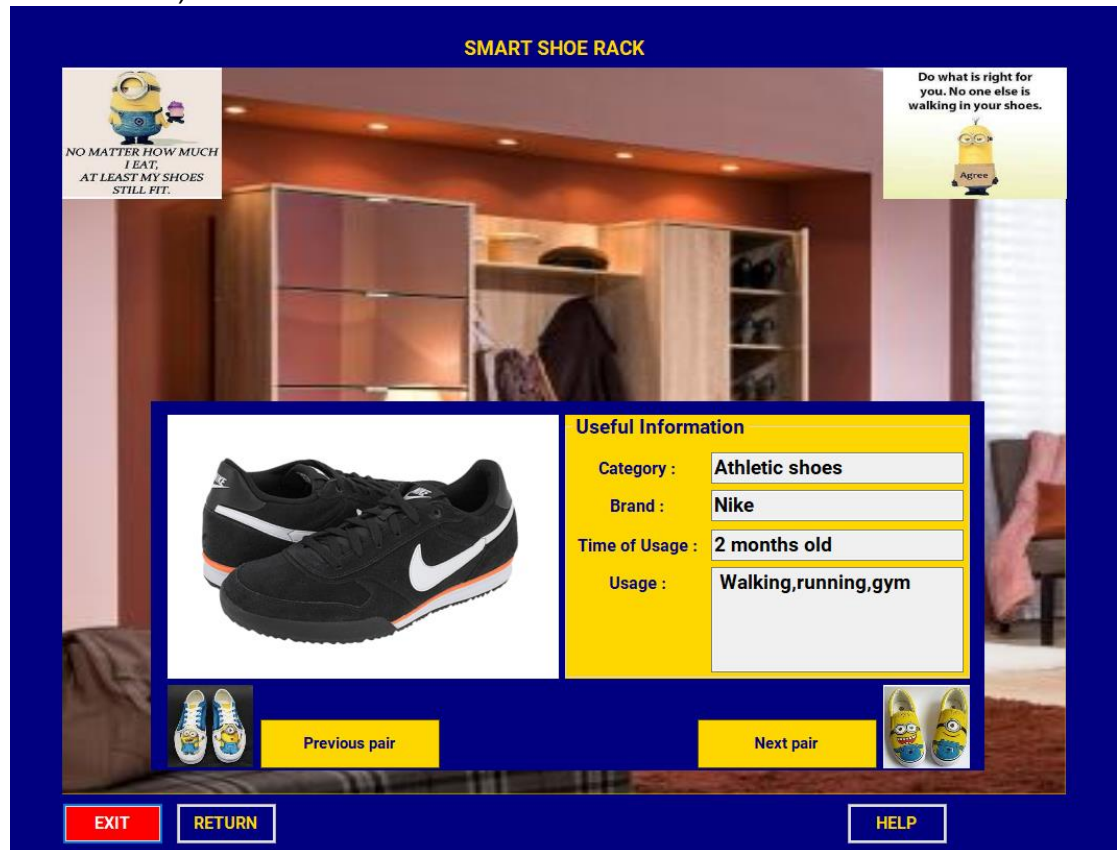

In Bedroom page there are 3 available devices you can control. These are:

1. Shoe-Rack
2. Television
3. Thermostat

- **Shoe-Rack:** Press the yellow button “Check your shoes” to go in your shoe-rack.  
All your collection with shoes is appeared in the Shoe-Rack. You can check different useful information about each pair shoe, like category, brand, time of usage and usage.

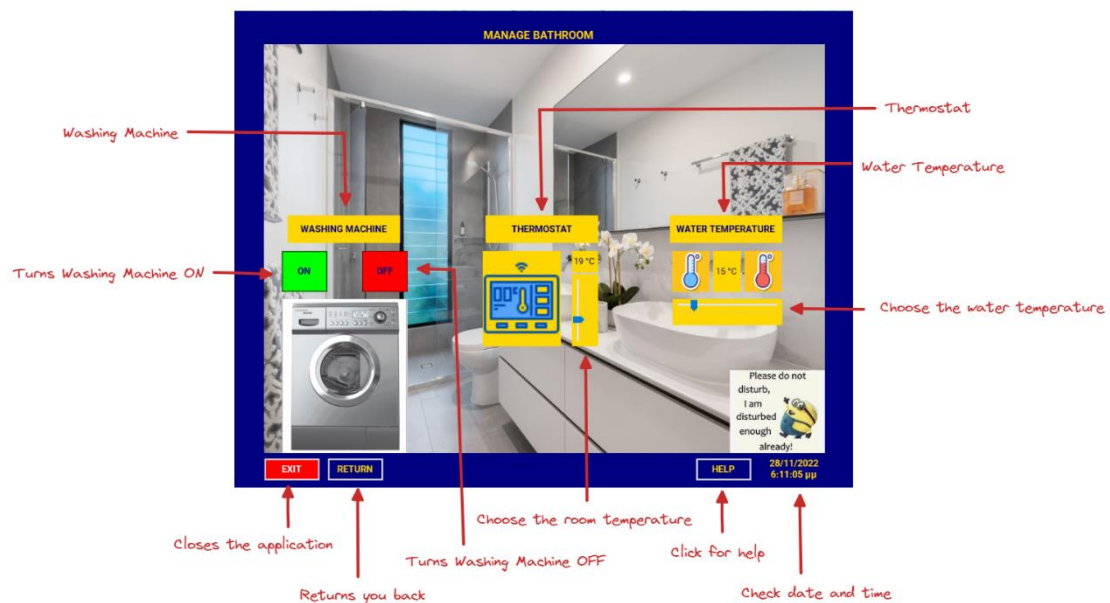

If you click the “Next pair” button you go to the next pair.

If you click the “Previous pair” button you go to the previous pair (if there is one).

- **Television:** When you click ON the TV turns on. When you click OFF the TV turns off.
- **Thermostat:** Controls the temperature of the room. The higher the temperature the warmer is your house. The thermostat temperatures are between 0 and 30 °C. The 0 value indicates that the thermostat is off. It never goes really to 0 °C.
- “Help” button: Provides help about this section of the application.
- “Return” button: Drives you to the previous page.
- “Exit” button: Closes the application.

## BATHROOM

In Bathroom page there are 3 available devices you can control. These are:

1. Washing Machine
2. Thermostat
3. Water Temperature

- Washing Machine: When you click ON the Washing Machine turns on. When you click OFF the Washing Machine turns off. Don't forget to use clothes detergent and the appropriate temperatures for different kinds of clothes (woolen clothes, T-shirts with stamps etc.). Finally, don't mix white clothes with colored clothes without color catchers.
- Thermostat: Controls the temperature of the room. The higher the temperature the warmer is your house. The thermostat temperatures are between 0 and 30 °C. The 0 value indicates that the thermostat is off. It never goes really to 0 °C.
- Water Temperature: Controls the temperature of the water in the shower and in the bathroom tap. The water temperatures are between 5 and 40 °C. Be aware of burnings due to hot water
- "Help" button: Provides help about this section of the application.
- "Return" button: Drives you to the previous page.
- "Exit" button: Closes the application.

HELP

28/11/2022  
6:04:58 μμ

- **Feed Settings:**

There are 2 suppliers. Food and water suppliers. Each one indicates the remaining food to grams in the supplier/remaining water to milliliters in the supplier and the remaining food /remaining water in the bowls.

If you want to manually feed your pet, then write the amount of food in grams and water in ml and click the “Manual feed” button. The amount you have chosen are added in the bowls and are reduced from the suppliers.

Remember not to overfeed your pet or starve it to death.

- **Daily Feed Plan:**

Here you can select Time, Portion of food, Water and activate them, in order the suppliers to provide the specific amounts of food and water to the bowls at the desired time of the day. Don't forget to click the “activate” checkbox to activate the option.

Finally you can add a 4<sup>th</sup> option on the daily feed plan by just filling in the “Add new Time”, “Add new portion” and “Add water” fields and by clicking the “Save button”.

- “Pet camera” button: Drives you to the Pet camera page.
- “Save” button:

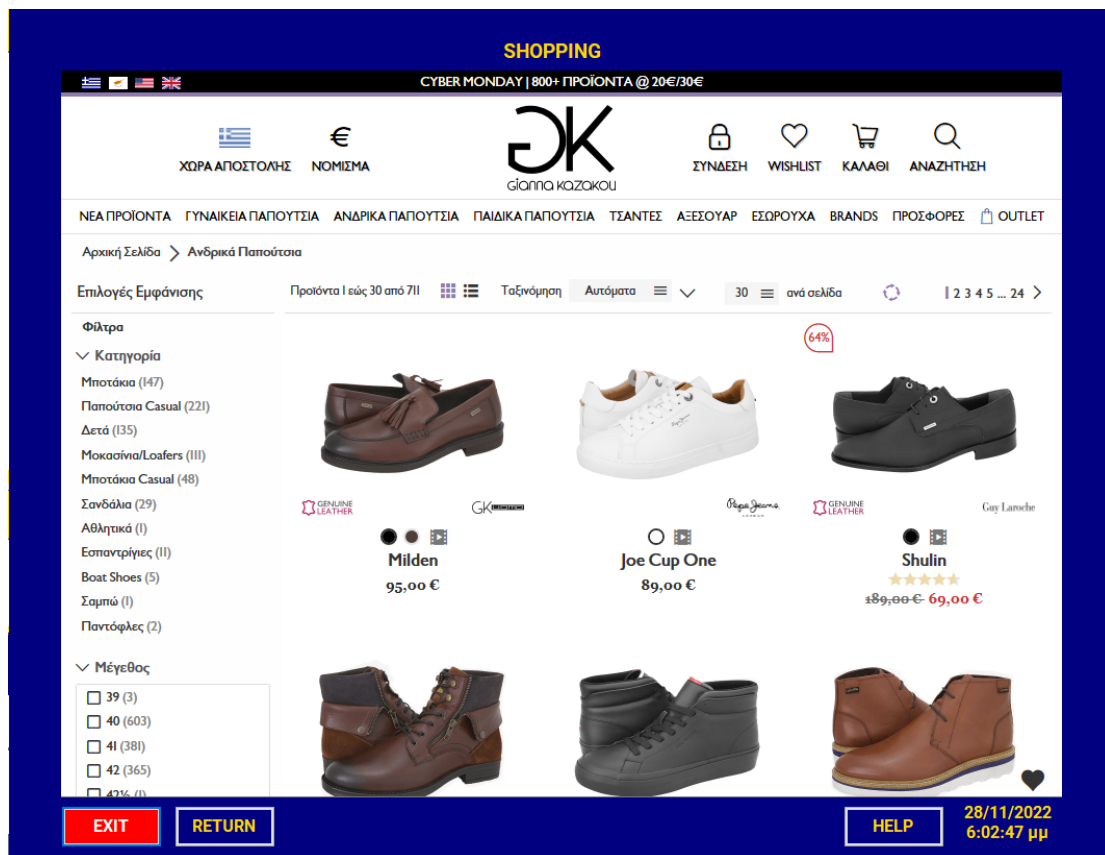

- “Help” button: Provides help about this section of the application.
- “Return” button: Drives you to the previous page.
- “Exit” button: Closes the application.

- Pet camera:

If you have seen a message that your pet was naughty, then a video will start when you enter the page. Otherwise, you must click on the “Watch the latest incident” button to watch your pet’s mischiefs. If you want to watch older incidents tap the “Watch older incidents”

## SHOPPING

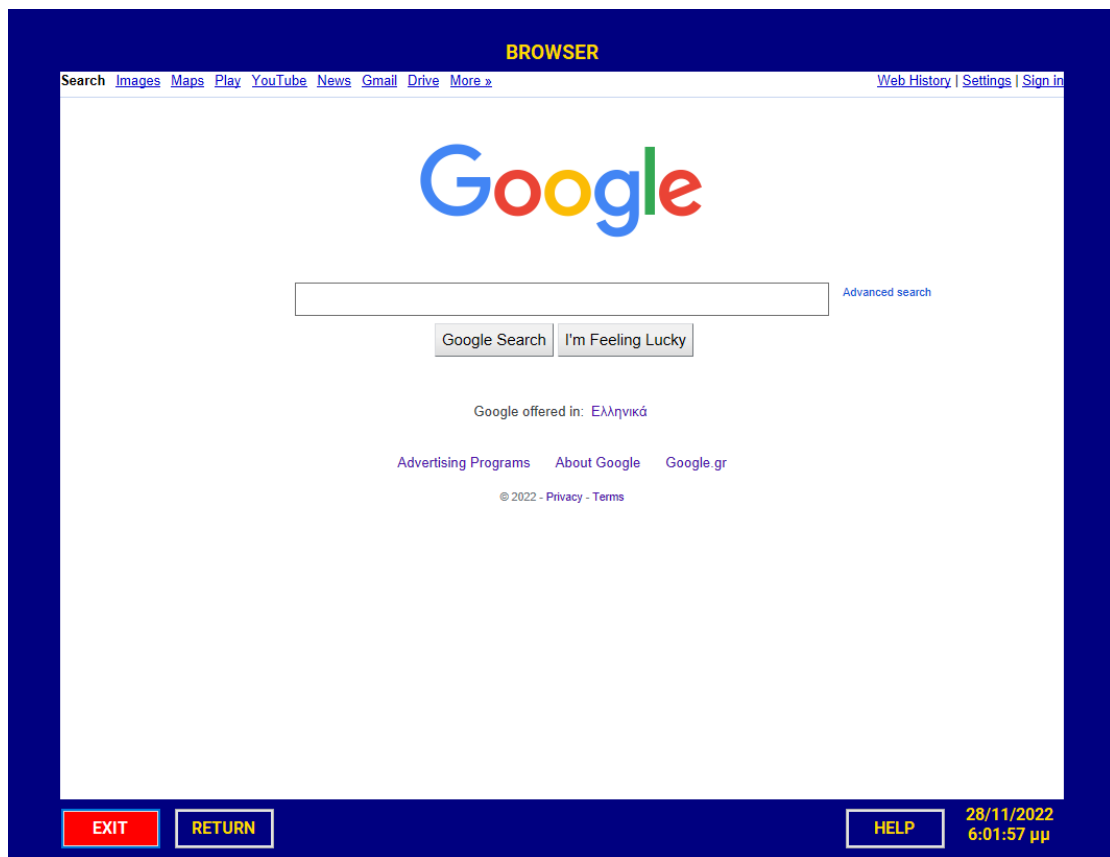

Choose your shoes, select color and number, add them to your shopping cart, pay them with your desired way of payment and we are set.

- “Help” button: Provides help about this section of the application.
- “Return” button: Drives you to the previous page.
- “Exit” button: Closes the application.

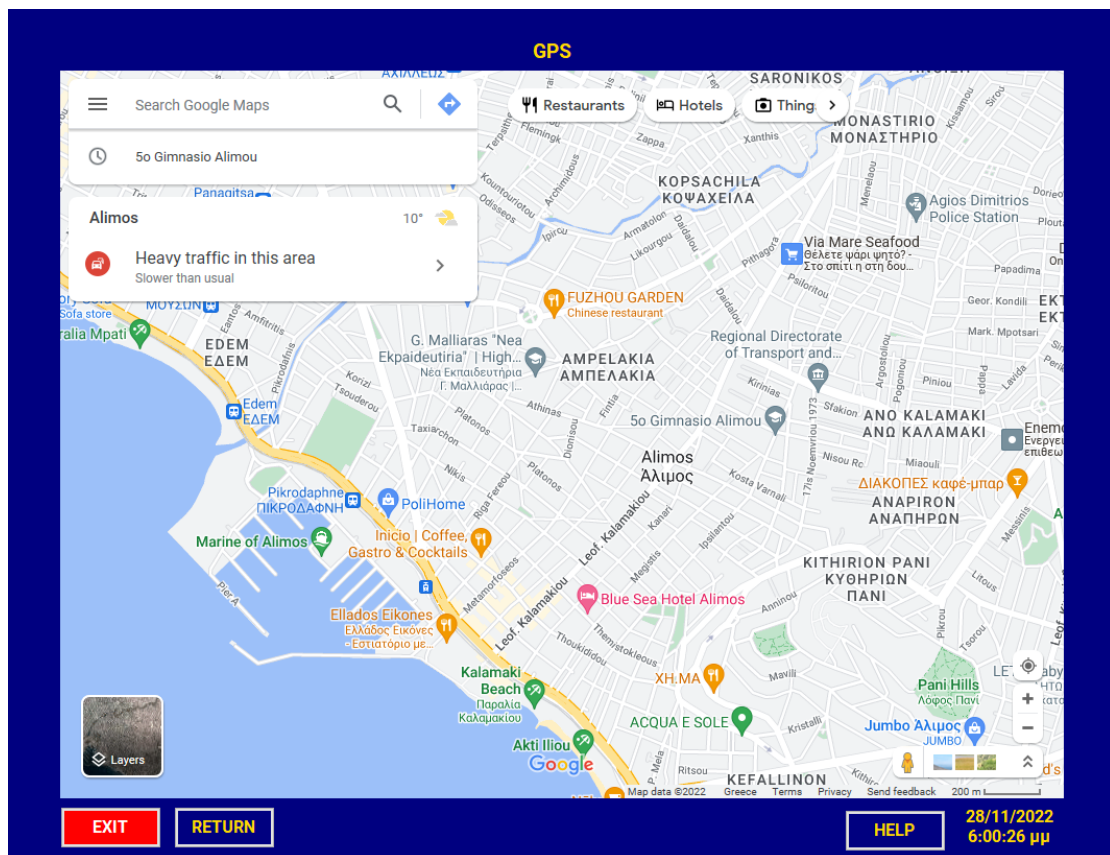

# INTERNET

Browse internet through Google. Write in the search bar and find almost everything.

- “Help” button: Provides help about this section of the application.
- “Return” button: Drives you to the previous page.
- “Exit” button: Closes the application.

## GPS

Enter the desired address or addresses, choose the way of transportation (walk, car, etc.) and you are ready to go. You can also watch traffic, time to the destination, alternative routes(no tolls, minimum distance and etc.)

- “Help” button: Provides help about this section of the application.
- “Return” button: Drives you to the previous page.
- “Exit” button: Closes the application.

Thank you for reading this manual and we hope that you will enjoy the ride with our application.
